ABOUT THE COURSE

The course offers high school students the chance to live a unique linguistic-cultural experience during a full-immersion programme.

Students will experience the adventure as they walk through two stretches of the Camino while improving their Spanish and discovering the historical and cultural roots of this age-old route. They will come into close contact with the pilgrims' world and the local lifestyle, in an amazing natural setting.

During the three classroom sessions at the USC, students will get acquainted with the historical, artistic and multicultural dimension of the Camino, improving their communicative skills in Spanish. In the afternoon, students will have the chance to discover the secrets of this city, the final stop of the Camino, by taking part in the leisure, participative activities included in our programme.
